LYNX - CLOSE UP

52' (ENG, GER)

May I introduce myself: my name is Lynx.

I have a short tail and characteristic tufts of black hair on the tips of my ears. Usually I'm very shy but still quite curious of the world around me. This is why I discovered the 15 cameras that have been set up in the Bohemian forest to catch all my activities with their sensors. With the help of local rangers they know where to find me and my friends when we go out for a hunt at night, or even in the intimate hours during our mating season. The cameras also pick up my impressive athletic abilities I am capable of, such as my long leaps and my talent to remain unseen to my predators. Skills like these make me a great hunter, come see how I use them!

Original Title: Hautnah mit Luchsen

Year: 2019
