DIRTY TYRES - A BILLION-DOLLAR BUSINESS

45', 30' (GER, ENG subs)

From daily driving to lengthy road trips, travel by car is one of the most prominent forms of transportation in the world.

Wherever the journey by car is headed, it can't be done without good tyres. The tyre industry is a billion dollar business, but how are the tyres manufactured? Where do the materials come from? Explore the sources of production in this film that gets a first hand look at the working conditions and methods used, discovering which countries contribute the most to the production of tyres and why.

Original Title: Schmutzige Reifen - Ein Milliardengeschäft

Year: 2019

Produced by: HTTV Produktion, WDR
