## WILD SLOVAKIA UNVEILED

2 x 45' (GER, FRE, ENG subs)

**Slovakia: a country with remarkable charm and breathtaking landscapes, yet remains unknown to many.**

Rich in scenic beauty, Slovakia truly is a natural paradise. In this two-part series we explore the two national parks, "Slovak Karst" and "Muránsk Planina." Each of these natural spaces are captivating with an unmistakable scenery: from untouched forests and wild horse herds, to mysterious caves and dramatic gorges. We do not only catch scenic beauties, but also immerse ourselves in the folklore of the country and in the traditions of the people. We get to know foresters, mountaineers, farmers, and passionate innkeepers. Each film follows 5-7 protagonists, who let us discover a piece of "their" national park.
