# BALI SPIRIT - ISLAND OF THE GODS

45' (ENG, GER)

**Bali – The dream destination for tourists from all around the world.**

When Bali comes to mind, one may think of the dream-like beaches, wild jungles, volcanoes, lush rice terraces, captivating temples, and of course - yoga! We visit Bali during the Bali Spirit Festival, which is one of the largest yoga gatherings in the world. Here, people can join each other in making music and dancing enthusiastically to the themes of love and life. Participants return to their roots, focusing on fundamental values beyond possession and power, and a connection to higher divinity. Come with us as we explore how well the spirituality that is lost to the western world is maintained in Bali.
