THE ANIMAL WITHIN

6 x 45' (ENG, GER)

We examine how animals have evolved over the course of time and analyze how we can benefit from their evolution.

Nature has manufactured the perfect machines. Eons of beta testing has gone into them: animal versus animal, versus element, and even alongside humans. In the end, only the fastest, toughest, and most cunning creatures have endured. What's under the hood of these incredible critters? What does it take to make them top performers, and, even more exciting; what can we learn to make us better, from these creatures who've been perfected over the ages?
