RAISING WILDLIFE

13 x 30' (ENG, GER)

We will get an intimate look at the daily routine of raising wildlife and experience exhilarating friendships between man and beast.

Sub-Saharan Africa is home to a diverse range of land and sea wildlife. Meerkats, turtles, caracals, cape grysboks, kudus, wild dogs, zebras, elephants, and chimpanzees are but a few. But often the young animals, big and small, become victims of the wild and need special care and attention. These dedicated and loving caretakers have committed themselves to providing this care. They get up in the middle of the night to feed their foster babies and make sure they are safe and warm. This series shows what it takes to care for these wild animals, the challenges the caretakers face and the obstacles their wildlife counterparts have to overcome. We will show you just how diverse the wildlife is in Africa and how young animals are taken care of and protected in, Raising Wildlife.
