# SNOW LORDS: THE SERIES II

4 x 45' (ITA, GER, ENG subs)

**The Snow Lords return for season two and they are risking it all.**

Val di Fassa, Italy. A small paradise renowned among skiers from all over the world for its extraordinary Dolomite landscapes and its perfect slopes. Here, the million-euro ski industry feeds an entire economy and after a year of closures due to Covid, they can't make any mistakes. Canazei is all in. A true skiing giant that can count on a huge ski area. Next to it, only a ski slope away, is another historic location, the Pozza-Bufferaure, while standing alone, is the small jewel of the valley, the Catinaccio-Rosengarten. Three locations, three teams and three leaders with one goal: to transform their territories into the best ski resorts in the world. But success will be no easy feat. It's a fight against time and the climate, with infinite maintenance to do, kilometers of cables to change, gigantic ski lifts to be tested and hectares of land to be covered with snow, but above all, scarce water resources that must be preserved. It's a seemingly impossible challenge for everyone... But not for them. Because they are: The Snow Lords.

### **1. Let's start again!**

In Val di Fassa the Snow Lords are preparing for the new season after a year-long stop due to Covid. Three ski resorts: Canazei, Vigo di Fassa, and Pozza di Fassa, are working tirelessly to reopen their respective areas in time.

### **2. Everyone at work**

In Val di Fassa, the Snow Lords must try to optimize their time in order to prepare their respective ski areas. The snow fall gives them hope, but not everything seems to go as planned

### **3. Awaiting the Cold**

Despite the difficulties caused by a lack of cold weather, the Snow Lords continue to prepare their areas for the imminent opening, but time begins to grow dangerously shorter and the threat of a failure to open is becoming more and more concrete.

### **4. A new beginning**

The cold weather has finally arrived in Val di Fassa and the Snow Lords must make snow and prepare the slopes in less than a week before opening. It's a race against time and bad weather with no room for mistakes.
