THERE'S NO PLACE LIKE HOME! MIGRATION - CHOICE OR NECESSITY?

90' (GER, FRE, ENG subs)

"If you want to know your future, look to your past." Does that ring true to Europeans today?

Can we preserve the future of Europe by learning from the mass migration of the late 20th century? In the past, was there ghettoisation, a marked increase in crime or religious fundamentalism? How did politics impact migration? These are some questions we stand to answer by looking to the past. This documentary is a cinematic investigation on the determinants of successful or unsuccessful integration in cities like Istanbul, London, Paris or Amsterdam.
