## VENICE - THE WHOLE STORY

2 x 45' (ENG, GER)

**Witness the rise and fall of Venice and a desperate race against time to save a sinking city.**

Using the multi-million euro renovation of Rialto Bridge by fashion entrepreneur Renzo Rosso (Diesel) as a starting point, this breath-taking documentary tells the story of Venice, from its maritime republic beginnings to the ground-breaking efforts to save the sinking city. Let us take you on a journey through the meandering canals, looking at fashion, culture and archaeology for an epic renovation of one of the most famous bridges in the world. The controversial impact of big cruise ships, global climate change and other threats to the Venice lagoon are covered in depth, as is the engineering behind a 7 billion euro project to build a massive underwater surge barrier that rises out of the sea when high tides threaten to flood the ancient city.

Original Title: Venedig - Die sinkende Stadt

Year: 2015

Produced by: Millstream Films, Autentic
