# THE STREAMLINER CASE - RECREATING THE MERCEDES 540K

45' (ENG, GER)

**The resurrection of the 540K Streamliner – New life breathed into an automotive legend**

They are world-renown, much sought after and idolized by car fans. We are talking about the Mercedes-Benz 540K. Built in 1938, the unique prototype Streamliner marks a milestone in aerodynamics. With streamlined angled radiators and a flat driver's cab, it was far ahead of its time. Now Mercedes-Benz Classic has decided to resurrect the rare vehicle. The stage has been set – a test drive in Papenburg, where we'll see just what it can do.
