

PEOPLE . PLACES

ASIA: SECRET LIVES - HIDDEN PLACES

10 × 45' (ENG, GER, FRE)

Experience Asia's most stunning national parks

Follow us into the unfamiliar and fascinating parts of Asia. Opulent images allow us to experience the unique beauty of nature and the stories of people and animals who live in this stunning world. We take you to beautiful places, from the flood plains of India to the vast step lands of Mongolia or the conservational work deep in the rainforest of Borneo. We also lead the viewer into paradisaal places far away from our western world. Enormous areas of wild, breath-taking beauty entice and allure. They are parks which today are being threatened directly by the ecological footprint of humans. Each of them has its own particular gems, whether above or below the water.
