# VIVA CUBA!

5 x 30' (GER, FRE, ENG subs)

**Despite its struggle with poverty and its politics, the small communist Caribbean island Cuba, has long since been a popular tourist spot.**

Nowadays, this relatively untouched island has opened its doors to people near and far. Viva Cuba! explores Havanna, soaking in history, music and culture, while admiring the island's architecture and its penchant for classic cars. On our travel through Cuba, we afford insight into the cultural changes of this country.

Original Title: Kuba - Auf zu neuen Ufern

Year: 2016
