HIT THE RAILS

3 x 52' (GER, 1 Ep ENG subs)

Experience Europe in a completely different way – but equally beautiful.

We are travelling the north of Europe by train - Norway, Sweden, Finland - and experience a journey through the eyes of our host Elena: her views, expectations, sentiments relating to the places, people and trains let the viewer witness this journey very close and personal. Elena travels through Scandinavia via InterRail, this means no flights or long car journeys with rented cars. She just uses train connections, complemented with some ferry- and bus journeys, where she can also use discounts from her InterRail-ticket. Take the rails for a whistle-stop tour of Europe. Meet other travellers, experience everything Europe has to offer and collect lifelong memories along the way.
