2 FOR 300 - TRAVELLING ON A BUDGET

33 x 30', 3 x 45' (GER) - long running series

In our travel magazine 2 for 300 - Travelling on a Budget Tamina and Uwe take you on weekend-trips to various cities in Europe.

As always they have only 300 Euro in their luggage for two days. Copenhagen, Barcelona or Rome are among the famous cities we have already seen and there's so much more to see and do. And not only for the rich, we'll show how fun travelling on a budget can be and what's there to experience with only 300€ in your pocket for a weekend for two.

Curious, ingenuous, spontaneous and always with a thirst for adventure the buoyant couple is wandering around the streets, markets and shops of the city. Using the source transport that matches best for the particular city, such as bike, scooter, bus or tram, the two are finding out about cultural traditions, reanimated handicraft or unknown stories. Many tips can be provided by the internet and Apps, but the best insider information you can only find out by getting in touch with the locals. This is a very different kind of travel documentary.
