A FOUR-CYLINDER THRILLER

52' (ENG)

A modern, lightweight design with a highly efficient four-cylinder, mid-mounted engine - that's what makes the Porsche Spyder legendary!

These sports cars, even with their comparatively small four-cylinder engines, have boasted many victories in car-racing events. The new model - the Porsche 919 hybrid - follows the same philosophy with a super-charged, highly efficient four-cylinder engine, sporting only two litres capacity. Porsche manages to continue their success story with this new model.

Original Title: Der Porsche 718 – ein Vierzylinder-Krimi

Year: 2017

Produced by: INFOkontor, Jump Medien, n-tv
