CLOWNS - THE POWER OF SILENCE

52' (GER, ENG subs)

Clowns are often ridiculed as jesters for children, but behind the red nose hides way more. They turn spectators' lives upside down without uttering one word.

Clowns are an embodiment of a departure from the restraints and conventions of modern society. They evoke emotions par excellence. The documentary shows the fascinating power of clowns who in a matter of seconds can create and demonstrate chaos - at street festivals, in circus arenas or on stage - by embodying an intense silence. Join us as we shed new light on our culture's oldest figure.
