GOING GREEN

5 x 45' (GER)

This series portrays individuals for whom sustainability is not so much a temporary fad, as a way of life.

They have decided to go their own way in order to achieve the goals in which they believe. Their motivations are as multi-layered as they are disparate; whether the result of tradition, driven by circumstances or born of dreams, what they all have in common is passion and conviction, as well as an awareness that changing one's thinking is coupled with a pioneering spirit and perseverance.

Episodes:

1. *Green Muffins*
2. *Green Hospitality*
3. *Green Vodka*
4. *Green Farming*
