THE TIME OF THE SILVER ARROWS

10 x 52' (ENG, GER)

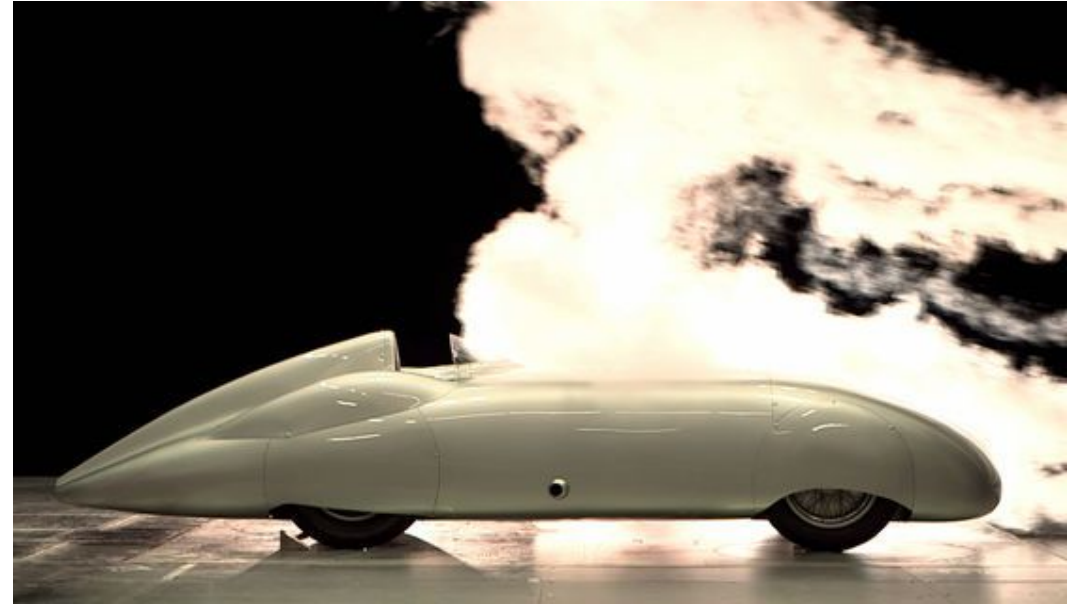

This is the debut of the Mercedes-Benz Silver Arrow as the reigning icon in Germany's race-car history.

The complex documentary shows the history of the Silver Arrow from the early 20th century to its biggest successes on international race tracks in the 1930s and 50s. It shows special scenes and reenactments, reports on the car and its collectors that complement a series of historical footages of the car. As an added bonus, drivers like Rudolf Carraciola and Hermann Lang as well as the manufacturers talk about their most magical moments with the car.

Original Title: Die Stunde der Silberpfeile

Year: 2014
