## CREATIVE MINDS – CONQUERING ABANDONED LAND

5 x 30' (ENG, GER, FRE)

**A forest, an island, a lake or a whole village - even in today's densely populated Europe we can find uninhabited and abandoned regions just ripe for the taking.**

These unscathed forgotten pieces of land, typically found adjacent to regular trodden paths, are being revived in innovative new ways. They are like blank untouched canvases waiting to become magnificent pieces of art. The series tracks the journeys of dedicated young people, who have reconquered a piece of Europe with their creative concepts.
