WILDERNESS IN EUROPE: THE BOHEMIAN FOREST

2 x 45' (ENG, GER), 2 x 30' (GER)

Ensnconced in the middle of Europe is the last great wilderness of the continent: the Bohemian Forest.

Endless woodlands, the enchanted moor lake and clastic granite rocks create a picturesque landscape that can be found nowhere else in our country. Located at the former border between the western- and eastern Bloc within the border triangle of Germany, the Czech Republic and Austria, the region is home to some extraordinary people, who are willing to cross all borders to fight for the environmental legacy of the Bohemian Forest.

Episodes:

1. The Psychogramm of a Spiritual Landscape
2. Boundary Experiences in Mühlviertel

Original Title: Eine Wildnis in Europa: Der Böhmerwald

Year: 2018
