LIFE BEYOND THE ORDINARY

10 x 45' (GER, 1Ep ENG subs)

Different people, different lifestyles - and definitely not an ordinary life. What does it take to live beyond the ordinary.

Meet some out-of-the-box thinkers: people who rather than trying to fit themselves into society are changing society to fit them. Whether it's their lifestyle, work, diet or ethics, their day-to-day lives differ significantly from the norm. These people have consciously chosen these alternate ways of living, but not to be different from others or to be special in any way. They are neither hedonists nor bizarre misfits but rather dissenters and visionaries whose life models introduce forward-thinking idealism into our society.
