FLYING CLIPPER - A MEDITERRANEAN HOLIDAY

160' (ENG, GER, FRE, JAP)

An epic documentary about the journey of a Swedish training sailing ship through the Mediterranean Sea in the arly 60s.

A captivating classic with images of a bygone era of travelling: From the Côte d'Azur and the coast of Greece to the Pyramids of Egypt. The 70mm camera, which was constructed for this film, was very light and allowed spectacular shots - attached to a race car during a Formula 1 race in Monaco or on top of the pyramids of Egypt. Flying Clipper contains some of the most spectacular footage of the 1960's and it has now been digitally restored in 4K.
