BIKING BOOM

3 x 30' (GER, ENG subs, FRE)

An astonishing hype has helped the bicycle to a renaissance in recent years. The bike became a cult object. Especially in urban areas it is considered a popular means of transport.

Since their invention 200 years ago, bicycles have also been a symbol of freedom, and for artists often more than just a faithful companion. Why is the bicycle so trendy? Who are the people who distill a philosophy of life from their everyday use? The three-part documentary series *Biking Boom* sheds light on the passionate and creative relationship between man and bicycle.
