TRUE FOOD

10 x 10' (GER, 2 eps ENG subs)

In True Food we show you a new generation of chefs who are looking for alternatives beyond the food industry.

While passion for regional and sustainable cuisine, high-quality food and innovative ideas unite all the members of the association, each chef interprets the values in his own way. To capture the variety of alternatives to mass-produced food these clips will take you on a journey around the world.
