BIRTH CONTROL - A MORTAL THREAT

45' (GER, ENG subs)

The birth control pill means sexual freedom for many generations of woman. But these hormone compounds are very controversial.

For Felicitas Rohrer this little pill has brought nothing but misery. After taking a birth control pill for several months, the young woman was brought to the hospital with a double lung embolism. She did not have any pre-existing illnesses, was not obese and did not smoke. So what was the cause - Her doctors believe it to be the birth control pill. Surprisingly, the pill is still on the market. Why is that so?
